Use Cases

We all depend on a fast, always-on broadband connection, and planning ahead to ensure everyone stays connected is essential.

The U.TEL 4G LTE Modem is a reliable backup source for broadband connectivity, allowing you to continue running without any disruption when your wire line broadband is unexpectedly not available.

Using the U.TEL 4G LTE Modem for broadband connectivity enables Internet access at fast speeds with the convenience of portability and flexibility. Unlike other connectivity sources, the U.TEL 4GLTE Modem can be easily installed in a matter of minutes, and it's ideal for a wide range of environments including rural areas, outdoors, and locations where wireline option is not readily available. Some typical applications include:

- LTE WAN backup for business continuity
- Interim solution to fixed line service
- Last-mile connection
- Temporary offices such as construction sites
- Mobile stores such as food trucks
- Kiosk - wire-free connection
- Vacation cabins / rural homes
